Stephanie,

Can you access and share the results of river sampling?

David Garcia, our Deputy Division Director is heading your way, today. We're also sending lots more staff to the San Juan area over the next few days and weeks. Let me know if there is anything we can help you with.

Subject: GKM - Note from meeting last night

Secretary Flynn (NMED) announced at the public meeting last night that NMED has been taking river samples every 6 hours for metals. Could we get someone to talk to the DW folks or whoever at NMED to see what you might get as far as sharing that data once they get it.

Thanks,

Mark McCasland
